Sustainable Procurement Policy

Product	Stearin pure, article 12300	Version	1.0 2023
		Version Date	22.02.2023
		Page-No.	1 of 1

We confirm herewith, that for the above mentioned STEARIN PURE we are holding his producers Sustainability Procurement Policy in copy, which is stating the following:

The producer, when carrying out its business, is committed to meet global demands and quality standards for his products.

The producer commits to “zero-deforestation” and respect for FPIC in operational palm oil supply chain.

As a responsible organization, the producer views *Sustainable Procurement* as a key process in supply chain.

The producer will adhere to the following Areas of Sustainable Procurement:

1. **Labour/Human rights** — guarantees against child labour, non-discrimination, working conditions, working hours, freedom association, compensation, freely chosen work.
2. **Health and Safety** — comply with applicable OSH regulations.
3. **Environment** — integrate environmental responsibility into sourcing and production.
4. **Ethics and Business Conduct** — adhere to good business practises.
5. **Management** — provide quality and safe products, complying with applicable laws and regulations.

The producer shall incrementally adopt the sustainable procurement approach for procurement activities to address wider environmental and social issues by engaging with his suppliers and stakeholders.
