

Safety Data Sheet for Transparent Soap Colour Sticks

According to REACH (CE) n° 1907/2006

Date of issue: 06.05.2020

Replaces edition of: 01.03.2018

Trade name:

Colour Sticks for soap

Article No. 71000, 71001, 71110, 71120, 71130, 71140, 71150, 71160

1 Identification of the product and of the company

Product name: Colour Sticks for soap

Use of the preparation: Cosmetic product for body care

Company name: Exagon AG, Räfelstrasse 10, CH-8045 Zürich

Telephone No.: +41 44 430 36 76

Emergency telephone No.: 145 (Tox Info Suisse)

2 Composition/ information on ingredients

Composition: See ingredients list on the packing. Sodium salts of fatty acids, anionic surfactants, glycerin, water, colorants

3 Hazards identification

Product classification according to regulation (EG) Nr. 1272/2008

This does not meet the criteria for classification as dangerous in accordance to (EG) Nr. 1272/2008

Symbols (EG) Nr. 1272/2008:

This does not meet the criteria for classification as dangerous in accordance to (EG) Nr. 1272/2008

Other Dangers

No data available

4 First aid measures

After inhalation: not applicable

After contact with the skin: if moderate use, no measures to be taken

After contact with the eyes: Immediately rinse eyes with running water. If eye irritations, seek for medical advice.

After ingestion: After ingestion of a large quantity or the observation of symptoms, seek for medical attention or call the local poison control centre immediately.

5 Fire-fighting measures

Extinguishing media: Water, Foams, CO₂, extinguisher

Specific danger: none

6 Accidental release measures

Personal protection: none

Environmental precautions: Do not discharge into drains or rivers

Clean-up procedure: Wash the spillage site with large amount of water

7 Handling and storage

Handling: no specific measures

Storage: Store in dry, cool, well ventilated area.

8 Exposure controls and personal protection

Protection equipment: no specific one needed

Respiration protection: no specific one needed

Eye protection: no specific one needed

Hand protection: no specific one needed

Indications on hygiene at work: standard industrial good hygiene procedure should be applied

9 Physical and chemical properties

Form Solid

Colour Transparent with different colours

Odor: characteristic

pH (50g/l): 9,1-10,6

Boiling point: ca. 100°C

Melting point: 50-60°C

Flamme point (COC): not known

Ignition point: not known

Danger of explosion/ flammability: not applicable

Vapor pressure (20°C) < 1 mbar

Solubility: Miscible with water

10 Stability and reactivity

Stability: Stable under normal conditions

Avoid contact with: strong oxidizing agents, like peroxide

Hazardous decomposition products: not expected

11 Toxicological information

Skin contact: There may be mild irritation at the site of contact.

Eye contact: There may be irritation and redness.

Ingestion: There may be irritation of the throat

12 Ecological information

Biodegradability: Biodegradable

Aquatic toxicity: minimized toxicity for living organisms in water. According to the water hardness can influence the water-pH

13 Disposal considerations

Disposal procedures: Waste should be recycled, if possible; otherwise incinerate according to local pertinent regulations.

Empty containers: For disposal, local regulations should be followed.

14 Transport information

Regulations: Not classified in RID/ADR, ADNR, IMDG, ICAO/IATA, DGR

15 Regulatory information

The surfactants are following the biodegradability conditions of the regulation (EG) Nr. 648/2004

Water danger classification: 1 (low) (estimation)

16 Other information

No other information

Legal disclaimer: To fully meet its aim, the products should be used, stored and manipulated according to the good industrial manufacturing procedures. The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
